I know on an older Mac that I had the operating system upgraded, the Apple guy put all of my older stuff in a separate folder.. The video editing software is an established name amongst Apple and Windows users.. It is natural that you want to download iMovie for your Windows PC. I looked in the Applications folder, the only iMovie I see is iMovie 10 0 7 I don't see any other folders that could have the older programs in it.. Both its free and paid versions offer Jan 07, 2019 Dec 06, 2018

Jan 12, 2019. It looks like this latest Apple person just trashed all of my older Download iMovie for Mac & read reviews.. You may have tried iMovie on Mac, iPhone, iPad and found it as such an amazing video editing software that can turn your clips into cinema-quality movies or trailers.
